NOTICE OF HEARING

PLEASE TAKE NOTICE that pursuant to Section 148-6, 131-1, 131-2, 131-3 and 131-7 of the Zoning Law of the Town of Skaneateles and Section 276-279 Town Law of the State of New York, the Planning Board of the Town of Skaneateles will hold a Public Hearing on the application of Christopher Foote for a minor two lot subdivision.

The proposal is for the subdivision of a 5.8+/- acre lot into two lots with lot A at 2.0+/- acres of vacant land and shared driveway, and lot B at 3.8 +/- acres with existing buildings.

The property in question is located at 1676 Coon Hill Road in the Town of Skaneateles, New York and bears Tax Map ID#035.-04-16.1.

A Copy of the application is available for inspection at the Town Hall, 24 Jordan Street, Skaneateles, New York.

SAID HEARING will be held on *Tuesday, December 19, 2023 at 6:40 p.m.* at the Town Offices, 24 Jordan Street, Skaneateles, New York or electronically as required by local and/or Executive Orders applicable to COVID 19. At that time all persons will be heard or have an opportunity to provide written comment on this application.

Re: Christopher Foote, Trident Subdivision
2 Lot Conventional Subdivision
1676 Coon Hill Road – Tax ID # 035.-04-16.1

NARRATIVE

The Foote property is a 5.85 acre lot with 416.21 ft of road frontage on Coon Hill Road located in the RF zoning district and Skaneateles Lake Watershed. It was part of the Stafford two lot subdivision approved around 1997 that separated the residence from the commercial portion of the property. It has three commercial buildings, tarvia driveway and gravel areas used for outdoor storage for a service business. The property has no well or on-site septic system. The south end has a steep slope ravine and watercourse on it. The ISC is 8.9%.

The proposed subdivision is to separate the commercial buildings from a residential lot. **Lot A** will have 2.04 acre with 416.21 ft of road frontage and share the existing driveway and utility line in an easement with Lot B. The shared driveway is 3.6% ISC leaving 6.4% for the development of the residential structure. The proposed septic will be in the Northwest corner of the lot and a well on the east side of the property.

Lot B will be 3.81 acres with the 50 ft wide access and utility easement as a flag lot. The three buildings will remain as well as the tarvia driveway. The gravel areas will be removed reducing the ISC to 8.3%. While originally a plumbing contractor's business, the property was then used as a tree service business and now a marine construction business that has three employees that report to work then leave to work off site 95% of their time. The property is used for storage of materials and equipment as well as shop work assembly of parts to be installed off site. Currently a port-a-john is on site but will be replaced with an on-site septic and well. The steep slope ravine and watercourse is on this lot.
