\_\_\_ The area variances, if granted shall be the minimum variance necessary and adequate, while preserving and protecting the character of the neighborhood and the health, safety and welfare of the community.

\_\_\_ The ZBA shall consider the benefit to the applicant if the variance is granted, as weighed against the detriment to the health, safety and welfare of the neighborhood or community. It shall consider that Skaneateles Lake is a public water supply and shall not grant any variance that, individually or in combination with other variances, may result in pollution of the lake from more intensive use of property, encroachment into required lake yards, additional surface water runoff or subsurface leaching of septic waste or any other factors.

The applicant **shall respond in writing to all** of the following required criteria. (use additional sheets if needed)

- 1. Whether an undesirable change will be produced in the character of the neighborhood or a detriment to nearby properties will be created by the granting of the area variance.

*(If your property is within 200 feet of Skaneateles Lake, any area variance that enlarges a building or enables it to encroach into a required lake yard shall be presumed to be substantial because of the cumulative risk of degradation of the lake posed by granting individual variances. This is rebuttable.)*

- 4. Whether the proposed variance will have an adverse effect or impact on the physical or environmental conditions in the neighborhood or district;

- 5. Whether the alleged difficulty was self-created, which shall be relevant to the decision of the Board but which shall not necessarily preclude the granting of the area variance.
